

Advanced Electrical Body Treatments

One off - £25, Course of 6 - £125

Your therapist will perform a detailed consultation and body analysis. They will use the information they gather to choose the most suitable treatment for you.

Electrical body treatments are great for cellulite, toning and firming the body and poor circulation. Any of the following treatments may be used:

Vacuum Suction - Aids with sluggish circulation, puffiness and stimulates lymphatic drainage.

Microcurrent - Tightens and lifts the upper arm muscles.

Galvanic - Reduces the appearance of cellulite on thighs and buttocks.

High Frequency - Produces an antibacterial effect on the skin and prevents breakouts.

Faradic - Tones and lifts the muscles. Good for abs and legs.

G5 - Mechanical massage.

Microdermabrasion - £25

A skin resurfacing and anti-ageing treatment for all skin types. Great for pigmentation, scarring and fine lines.

Back Facial - £15

Great for congested or acne prone back and shoulders. You will receive a back cleanse, exfoliation, massage and deep cleansing mud mask. Your therapist may also include Direct High Frequency to reduce oil production and produce a germicidal effect. This helps to eliminate any congestion and bacteria.

LEVEL 3 BEAUTY SERVICES

Full Body Massage - £22

Your therapist will perform a full body massage using either hands, mechanical massager or a combination of both to ease all tension and stress, leaving you feeling totally relaxed. Infra-red warming may also be used for extra tight muscles.

Aromatherapy Massage using Pre Blended oil - £28

After a full consultation your therapist will choose a pre blended aromatherapy oil to compliment your specific needs and requirements. You will then receive a relaxing full body aromatherapy massage to soothe the mind, body and soul.

Hot Stone Full Body Massage - £28

A full body massage incorporating hot and cold stones to balance the body and relieve muscular tension.

Relax the mind
Renew the body
Revive the soul

Advanced Electrical Facial One off - £25, Course of 6 - £125

Your therapist will perform detailed consultation and will use the information they gather to choose the most suitable treatment for you. Any of the following treatments may be used:

Vacuum Suction - Aids with sluggish circulation, puffiness, congestion and helps to reduce fine lines.

Non-Surgical Face Lift (Microcurrent) - Tightens and lifts the facial muscles, creating a more youthful appearance.

Galvanic - Suitable for most skin types. Active products are pushed into the deeper layers of the skin to combat skin concerns.

High Frequency - Produces an antibacterial effect on the skin and prevents breakouts. Indirect method can be used within facial massage to decrease skin dryness.

Faradic - Tones and lifts the larger muscles in the face.
