

The Sussex & Surrey Institute of Technology (SSIoT) is a partnership between colleges, universities and employers, delivering technical education in engineering, construction and digital.

Visit our new SSIoT building, featuring advanced engineering workshops, specialist construction training facilities and industry standard digital and data equipment.

Courses are designed with employers to address regional skills shortages and support progression into employment. The centre also supports local businesses through access to selected facilities.

Located at the centre of campus, the SSIoT building is open to visitors who wish to learn more and speak to our team.

Ready to apply?

- 1

Visit our website at
crawley.ac.uk
- 2

Find your course
Go to our A-Z course finder or select by subject area and choose the right course for you
- 3

Start your journey
Create an account, complete the application process by filling in your details and our admissions team will be in touch soon
